

You can afford the best!

Accessible and Affordable

Accessibility and affordability are important when you're choosing a college. Our generous financial aid packages make a Wisconsin private college education affordable.

Ninety percent of our undergraduate students receive financial aid packages with more than seventy percent grants—funds the students won't have to repay—instead of loans.

Think "Net," Not "Sticker" Price

There can be a big difference between the "sticker" price of a college and what you will ultimately pay. A financial aid package designed specifically for you needs can dramatically shrink out-of-pocket costs. Remember—think "net" tuition, not "sticker" price, when researching college costs.

From here, you can go anywhere

There are many reasons to consider a Wisconsin private college, including more personal attention from the faculty and better graduation rates.

- Smaller class sizes—averaging 17 students per class
- Higher probability of graduating in four years
- Instruction by faculty, not teaching assistants
- Career counseling, internships, volunteer opportunities, and study abroad options
