

WAICU Educational Technology Consortium (ETC)

Program Features and Benefits

- The objective of the WAICU Educational Technology Consortium (WAICU ETC) is the joint selection, purchase, implementation, and operation of a common administrative/academic system commonly known as an Enterprise Resource Planning (ERP) system.
- WAICU ETC offers participating colleges to have a higher-quality joint system with more functionality and greater flexibility than any institution could afford on its own.
- The collaboration has resulted in better pricing for software, implementation, training, and long-term maintenance.
- Mr. Rod Opsal is the primary contact for the consortium. Mr. Bill Schultz serves as principal project manager, liaison with Jenzabar, and intercampus coordinator.
