

WAICU Microsoft Campus Agreement Program

Program Features and Benefits

- The WAICU Microsoft Campus Agreement Program is an annual licensing program specially created to address the unique needs of higher education institutions.
- The Agreement gives higher education institutions the right to run the licensed software on all their computers for a 12-month period, and automatically licenses all upgrades of the software throughout the term of the agreement.
- The MS Campus Agreement provides simplicity and flexibility because it is based on the concept of counting faculty/staff Full Time Equivalents (FTE) instead of counting computers.
